

End User Licence Agreement

Magic Rush · Effective 19 October 2026 · magic-rush.com · support@overflowstudio.com

This agreement licenses the use of Magic Rush (“the software”). It sits alongside the Terms of Service, which govern the wider service.

1. Licence granted

We grant you a personal, non-exclusive, non-transferable, revocable licence to use the software for your own generation work while your account is in good standing.

2. What you may not do

- Copy, resell, sublicense or redistribute the software or access to it.
- Reverse-engineer or attempt to extract the source, except where that restriction is prohibited by law.
- Remove or obscure any ownership notice.
- Use it to build a competing service.

3. Ownership

We own the software. You own your prompts and the outputs you generate. Nothing here transfers ownership of the software to you.

Third-party AI models remain the property of their providers and are used subject to their terms.

4. Third-party services

The software sends your prompts to third-party AI providers to fulfil a job. Their availability, output and acceptable-use rules are outside our control, and a provider may decline a request.

5. Updates

The software updates continuously because it runs on our servers. We may add, change or remove features. Material reductions to a paid plan follow the Terms of Service.

6. Warranty and liability

The software is provided as-is without warranty of any kind. Liability is limited as set out in the Terms of Service.

7. Termination

This licence ends when your account closes or you breach these terms. On termination you must stop using the software.
